

Priya Murkute

QA Engineer · United Kingdom · priyamurkute7@gmail.com · +44 7789 595457 · [linkedin.com/in/priya-murkute-oct7](https://www.linkedin.com/in/priya-murkute-oct7)

Three years of manual and automated testing in Agile teams, across test planning, test design, API testing and automation frameworks. I care most about the part people skip: making sure a defect that was fixed once stays fixed, and that the suite still tells the truth six sprints later.

SELECTED OUTCOMES

+50%
testing efficiency

Selenium and Java framework built and maintained

+30%
API test coverage

REST automation extended across services

-15%
recurring defects

Tracked, retested and closed rather than reopened

EXPERIENCE

QA Automation Engineer (SDET)

Feb 2023 - Sept 2023

Testing Info · London

- Created and executed test cases and scenarios for web applications
- Ran functional, regression and integration testing
- Tested REST APIs with Postman and RestSharp
- Logged and tracked defects in Jira and Azure DevOps
- Worked with developers and product through Agile sprints
- Produced test reports and supported release validation

Senior QA Automation Tester

Oct 2019 - Oct 2022

Wipro Technologies · India

- Designed and executed test plans, test cases and test scripts
- Ran manual and automated functional, regression and UAT testing
- Built and maintained Selenium and Java automation frameworks (+50% testing efficiency)
- Increased API test coverage by 30% with REST automation tooling
- Led defect identification, tracking and retesting (-15% recurring issues)
- Worked across cross-functional Agile teams through sprint cycles
- Contributed to QA process and testing strategy improvements

EDUCATION

MSc Computer Science · Queen Mary University of London

2024

BE Computer Engineering · India

2019

SKILLS

Testing types

Functional, Regression, Integration, UAT, Exploratory, API

Automation

Selenium WebDriver, C#, Java, NUnit, TestNG, Cucumber

API tooling

Postman, Rest Assured, RestSharp, REST APIs, JSON

Test & defect management

Jira, Azure DevOps, Test case management, Test reporting

Process

Agile (Scrum), SDLC, STLC, Sprint planning, Retrospectives

CI/CD & data

Jenkins, Azure Pipelines, GitHub, SQL, Root cause analysis
